Line # is an arbitrary reference number for this discussion only.

Man # is the "No." on the front cover.

Date is the copyright date; if a second date is shown, that date appears either on the cover or elsewhere in the manual.

P/R is the printing reference.

Address: A = Albany, NY; B = Brooklyn, NY; E = Elizabeth, NJ; N = New York, NY; Am = American Edition; L'v'p = Liverpool

of pages excludes covers, unless marked with an asterisk (*).; [] means pages unnumbered, # means pages modified - see Other Notable Pages

Highest part numbers are as shown in the set contents, parts illustration, or parts list.

Set No's shows the sets listed in the manual, taking the largest spread from the price list; "invn" means "inventors outfit", with A and B where required.

The Page Numbers are listed where the parts illustration, parts prices, set prices, and set contents are found. Ref 17.1 has the same parts illustration/prices as ref 16.1, but stamped "see revised price list page 135"; pg 135 (and 136) is pasted on the stub of the old page, and is headed "(Revised January, 1917)". Same added page is in other 1917 manuals
